It means having access to clean water and proper sanitation...It means building a world fit for children, where every child can grow to adulthood in health, peace and dignity." — Carol Bellamy

"Protecting the health and safety of all Americans doesn't have to come at the expense of our economy's bottom line. But as we bring thriving companies and new jobs down? have to come at the expense of the air we breathe, the water we drink, the food we eat, or the natural landscape in which we live. We can, and we can, and indeed must, have both."
